Dear Sir/Madam,

Guaranteeing the security and safety of citizens is one of the central priorities in the European Union. I am pleased to invite you to attend the European Security, Government, and Infrastructure Symposium, November 10, 2005, in Prague, Czech Republic.

The event will provide you the opportunity to find out how your industry peers in Europe use Intergraph's solutions for public and transportation security and safety, including the ASTRID system for the Belgian Federal Police and the Belgian Local Police, City of Prague Traffic, German Federal Police, City of Krakow Police, Italian Rail, and City of Stuttgart Public Transit, as well as major International airports and more.

Innovative approaches in the below areas will be presented and demonstrated:

• Emergency Operation Center	• Sensor Fusion
• Integrated Response System	• Video Analysis
• Incident Response	• Mobile Computing
• Border Protection	• Communications Interoperability
• Public Transit Security	• Rail Security
• Dynamic Traffic Information	• Airport Security

Making the world safe and secure can be an all-consuming part of your mission. Developing the world's smartest technologies to help you achieve it is our mission. For decades, Intergraph has created leading-edge solutions helping to create safer cities and communities and protect critical infrastructure around the world. As a leader in the field, Intergraph can help you use "intelligent" technology to secure assets, mitigate security threats, and make fast, effective emergency decisions.

To register to attend this FREE event, simply complete the enclosed form and fax it to +31 23 5666 414 (registration will close Friday, October 27), or e-mail the completed form to [information-europe@ingr.com](mailto:information-europe@ingr.com). Upon enrolment you will receive registration confirmation and directions to the seminar venue. If you have any further questions, please do not hesitate to contact me at the above e-mail address. I look forward to seeing you in Prague!

Yours Sincerely,
